County Board of Health Declares War on Contagious Diseases. A special meeting of the Barren County Board of Health was called last night to consider the diphtheria and scarlet fever situation in the county. Since these diseases are rapidly increasing, control measures were discussed. Members of the Health Department will begin at once to actively immunize the school children against communicable diseases. The work will begin at the Glasgow schools since the situation is most acute there. As rapidly as possible, all other schools of the county will be visited for the purpose of inoculating and vaccinating.

Yesterday about noon three men drove up to Mr. Roger Foster's store just beyond the railroad track on the Bowling Green Road, one man remaining in the car and the other two entering the store. They ordered cheese for lunch but when Mr. Foster reached for the block of cheese, one of the men drew a pistol and yelled "stick 'em up!" The second man cleaned out the cash drawer; both men backed out of the store and into the car, and headed down the road toward

Bowling Green. Officers Gene Wooten and Will Barlow pursued them and, within an hour, sent word to Mr. Foster to come to Bowling Green to identify the thieves; however, the suspects were not the right men. So far, the real thieves have not been captured.

Mr. O. L. Shackleford, who died at Rowletts recently, left almost his entire fortune of some $46,000 to the Baptist Church, in one way or another. He left $1500 to the Baptist Church at Rowletts, $1500 to the Baptist Church at Lonoke and, after minor bequests of about $1000 to others, left the balance of his fortune to the Baptist Children's Home at Glendale. His actions lead us to suspect that he was a Baptist.

Mr. George F. Eubank died at his home in Cullison, Kansas Tuesday morning, lacking only a few days of being 76 years of age. Mr. and Mrs. Eubank went to Kansas 40-odd years ago and prospered. He left ten children, nine of whom live in Kansas and one, in Florida. He was a member of the Christian Church and was held in the highest regard by all who knew him.

From Forkton: On Sunday, November 8, the Old Mulkey Meeting House and the environs became a State Park. Several speeches were made by local speakers, and Governor Sampson delivered the principal address. Dedication ceremonies lasted all day, with a great dinner spread that served perhaps 2500 people from all parts of the country. The Reverend Willie Thomas, who is nationally known and who is a Monroe County product, was Master of Ceremonies. Special prayer was held at the grave of Hannah Boone sister of Daniel Boone, the greatest pioneer of the Western World, thus appropriately commemorating the gallant deeds of this historical character whose name and fame will continue to live through all the ages of future civilization.

No Such Fall Has Ever Been Known. Here we are, the middle of November, and no killing frost yet. Vegetables are growing in the gardens, blooming and forming new leaves. Green

tomatoes are ripening and all other vegetables of the late fall are growing, with turnip and mustard greens served on the table daily. The oldest inhabitants here cannot remember so open a fall as we have had this year.

Lady Candidate for Congress in Nebraska. Mrs. Minnie Grinstead Himes of Humboldt, Nebraska, is a candidate for the nomination for Congress from the First Congressional District of Nebraska. This is interesting to most of our readers only because she was born near Summer Shade, daughter of the late Mr. George R. Grinstead, who died last July 22 at the age of 94. Mrs. Himes is closely related to many of our citizens – the Grinsteads, Depps and Joneses – and has been living in Nebraska since 1878, having moved there with her parents when she was a very small child. Even if she doesn't win, her opponent will know that he sure has
been in a fight.

The fire alarm was sounded early Tuesday night and, in about two minutes, the fire trucks and personnel, and an army of automobiles whizzed out West Washington Street. Just back of

Goodman Bros. warehouse, they found someone who was unloading staves and, since it was a frosty night, he had built a small fire to warm by. Seeing that everything was under control, the firemen headed back to the fire station, hampered all the way by the heavy traffic of the curiosity seekers.
