

SHERIFF DEPUTIES LOCATE TWO METH LABS SATURDAY

Monday, 21 January 2013 16:34

Warren County Sheriff's Office received a call of meth making materials being found in two different locations Saturday. The first call was received around three thirty and the deputies responded to a field in the 2100 block of Morgantown Road. Items were located at this location associated with the manufacture of methamphetamine labs.

An hour and a half later another call was received and they responded to the 1700 block of Whites Chapel Road. Deputies found at this location, two altered tanks to carry anhydrous ammonia along with various materials used in the manufacture of methamphetamine.

Both locations were cleaned up by a lab certified trained deputy. The Warren County Drug Task Force was made aware of both labs. At this time, there are no suspects and the investigation continues
