

The City of Glasgow will be applying for some grants after last night's meeting of the Glasgow City Council. The first is a grant from the Kentucky Pride Fund to upgrade the conveyor and bailer system in the city's recycling program. The project would cost over \$202,000 with city matching 25% to the KPF's 75%.

The next grant is from the Federal Highway Administration. The grant would be used to update the recreational trails at Beaver Trail Park. The city agreed to set aside \$10,000 in the budget to match the federal grant of the same amount.

The council passed a resolution last night indicating it's willingness to assist WKU Glasgow with any expansion of facilities efforts. Here's Mayor Trautman:

The City Council opted to go into closed session to discuss the expansion of a local business. What business and to what extent the expansion was not made public as Mayor Rhonda Trautman made no announcement once the council was brought back into open session.
