

## **ANOTHER RECORD DAY OF ELECTRIC USAGE EXPECTED TODAY**

Tuesday, 09 July 2013 06:55

---

Tuesday, July 9th looks like another day when we may set a new monthly peak for electricity usage in Glasgow. The Glasgow EPB asks that whether you are a residential or business customer, during a brief 4 hour period of noon - 4pm please curtail as much electric usage as possible. You can monitor city-wide electric usage on the Glasgow EPB's home page at [www.glasgow-ky.com](http://www.glasgow-ky.com)
