

BCHS CELEBRATES TEST SCORES

Monday, 30 September 2013 10:02

Students did the wave in Barren County High School's gym on Friday, as they waited for the big news from Principal Steve Riley to announce the big news. School district assessment reports had just arrived and Barren County Schools improved in every category, scoring in the 80th percentile. Principal Riley knew it would take everyone working together to raise scores from last year:
