

*Starry Tales for a Winter Night*, a highly interactive experience designed to help you find your way around winter's night skies, opens Dec. 26 at [WKU's](#)

[Hardin Planetarium](#)

Show times are

7 p.m.

Tuesday and Thursday and

2 p.m.

Sunday through Jan. 26.

Participants will examine star patterns visible in the current evening sky, learn some of the stories our ancestors told to help them remember these patterns and discuss some of the bright stars, planets and other celestial objects of interest in the evening sky.
