

Road Crews will continue to work until around dark tonight and most treatment of the roads will stop at that point. Temperatures will drop too low for our treatment to be effective overnight. Crews will resume treating and plowing tomorrow morning. We have made a lot of progress on the roads today, but there are still a lot of hazardous areas in our district.

Roads that have improved today could worsen tonight as the temperatures fall. Motorists need to use exercise caution when traveling and allow for a lot of extra for travel. There will be crews on standby tonight for emergency situations.

Allen, Barren, Butler, Edmonson, Logan, Metcalfe, Monroe, Simpson, Todd, and Warren are in District 3.

Wes Watt
