for another crop. Women are cleaning their yards, planting garden, quilting, and setting hens – just doing their spring work.

J. O. Horning. The proposal has much merit and would no doubt effect the saving of much property, should the plan be followed. Merchants, both in Glasgow and throughout the county, are urged to take part in the campaign.

“Red” Means “Stop.” Rodes Myers, lieutenant governor, paid \$3.00 for running a red light at Cave City last week. The Courier-Journal reported that Myers, when accosted by Marshall Reynolds, said, “But you don’t know who I am, do you?” Reynolds is reported to have replied, “I don’t care who you are. You ran the light and it’ll cost you three bucks.” Reynolds gave Myers a receipt for the cash – and each went his merry way.

Snake Farm Is Planned on 31-W. Latest development for Barren County is in the offing in the form of a “Herpetology Museum,” or snake farm, which is planned by Jack Raymon on part of the old Edwards family property just below Park City on Dixie Avenue. We are not so advised, but it is probable that snakes will be raised for their venom on this development.

Leonard Marcum, of Sulphur Well, was removed to the Community Hospital here Tuesday where he was suffering from severe burns. It is reported that he had run out of gasoline near Knob Lick, and while parked beside the road, had evidently gone to sleep with a lighted cigarette in his hand which caught his clothing on fire. The smoke and flames were seen by Mrs. Wadena Blakeman, from a nearby house, who managed to extinguish the blaze, but Mr. Marcum was severely burned as there was grease on his clothes which caused the fire to spread rapidly.

Kino Store Burns. Hubert Renick's store at Kino was destroyed by fire of unknown origin last Friday night about 10 o'clock. Neighbors made a valiant effort to save the contents, but such

headway had been gained when discovered, that all efforts were futile. The fire was plainly visible from various points along the road from Glasgow to Freedom. The loss was only partially protected by insurance.

Mrs. Travis Watson, who lives on Route One near Pritchard's store, has an Indian head penny that was made in 1899, given to her by her Uncle Jim Vance, near Nobob. Mrs. Watson was less than one hour old when her uncle placed the penny in her hand, and the fact that she is still holding on to the coin proves conclusively that she can hold on to money.

Jane and Gene ride like demons, shoot like sixty, corral a band of bank robbers and break up a family feud to round up a double quota of entertainment in this picture.
