The Sampsons will have room for several hundred, all informal.

Glasgow's aviation activities are steadily increasing. The past week brought us many visitors of the Aeronautical world. Sunday the new airport viewers were held spellbound by the stunt flying of Mr. Ted N. Kincannon, District Representative of the Command-Aire Aircraft Corporation of Little Rock, Arkansas. In the early part of the day, he demonstrated the salient safety features of the Lycoming powered Command-Aire plane, while in the afternoon he soloed the ship. His riding on the turtle back with no one at the controls and his upside down flying was a spectacular feature for Glasgow's air enthusiasts. Ted is always welcome in Glasgow because of his ever co-operative movements in making it an air center of repute.

The Kentucky Utilities Company has installed two snow-white electric delivery trucks for their ice delivery. The bodies are so constructed that the ice is delivered from each side, the vendor being protected from the sun and rain. Being propelled by electricity, they are practically noiseless, and you had better try to remember to hang your ice card out. If you wait until you hear the ice truck coming, you'll miss it. The new delivery trucks are both neat and nifty. The drivers of these new trucks are not "Luther and Will." They are "Mr. Franklin and Mr. Francis." Kindly remember this.

We hear much about hard times and lack of money, but if you had attended the "Carnival" at the ball park last week, you would have been ashamed to say anything about hard times. When 500 people run over each other to pay 50 cents for a ticket to see a fake wrestling match between two lightweights, and crowd every other "attraction," you would realize that the cry of hard times is a humbug. Now, mind you, we did not see the show, but we got a report from reliable people who were there.

Mr. Eugene Borders of Casper, Wyoming, visited his mother, Mrs. Maude Duncan on June 4 and returned home June 9. He was accompanied by his friend, Mr. Tommy Johnson of the same town.
