It Was "Plenty" Sad. Just five minutes before the city clock struck ten Monday morning, it happened. Twenty gallons of whiskey taken in a raid on Buck Creek last Tuesday night was consigned to the gutter, by order of the court, and went rippling down towards South Fork Creek. Another keg of ten gallons was kept for "evidence." The ceremonies were witnessed by some twenty-five or more whose countenances bespoke the sadness of the occasion. That's just one more thing to be thankful for today, that this twenty gallons of poison was destroyed instead of being dispersed to people who did not need it, and whose families need the price of it in the necessities of life.
